EDUCATION

B.E. CSE (AI & ML), III – year

2024 – 2028

KIT-Kalaignarkaranidhi Institute of Technology, Coimbatore.

CGPA: 8.40/10.0

Coursework: Computer Architecture, Computer Networks, Artificial Intelligence and Foundations, DSA, OOP

EXPERIENCE

AI & Machine Learning Intern, Femtosoft Technologies – Chennai, India (Onsite)

May – June 2026

- Developed a Delivery Delay Prediction System using machine learning with data preprocessing, feature engineering, and predictive modeling.
- Built an end-to-end AI web application using Pandas, NumPy, Scikit-learn, and Streamlit with a user-friendly interface.

Event Participant, Odoo Education Day | Odoo HQ – Dubai, United Arab Emirates (Onsite)

Jan 2026 | [Link](#)

- Gained exposure to Odoo ERP modules and business process automation.
- Explored ERP workflows and Odoo's business application ecosystem through hands-on sessions.

PROJECTS

Movie Booking System | React.js, Node.js, MongoDB, JWT, Git

[Repo](#)

- Developed a full-stack Movie Booking System allowing users to browse movies, view show timings, select seats, and book tickets.
- Implemented secure user authentication, real-time seat availability tracking, and booking confirmation functionality.
- Designed an admin dashboard to manage movies, theatres, show schedules, and monitor bookings efficiently.

Portfolio | HTML, CSS, JavaScript, Vercel

[Link](#)

- Developed a fully responsive portfolio website to present academic achievements and personal projects.
- Built reusable UI components to maintain structure, readability, and scalability.
- Hosted the website publicly on Vercel for global access and version tracking.

Deepfake Detection System | Python, CustomTkinter (GUI), CNN (Xception + ResNet)

[Repo](#)

- Developed a deepfake detection model using combined CNN architectures (Xception + ResNet) for high-accuracy classification.
- Implemented preprocessing and training pipelines to detect synthetic images displayed through a GUI built with CustomTkinter.
- Increased accuracy through optimized dataset selection and model tuning.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript

AI/ML: Scikit-learn, NumPy, Pandas, OpenCV, TensorFlow

Web Development: HTML, CSS, React.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Power BI

CERTIFICATIONS & COURSES

Maiyyam - Full Stack Development Traineeship

[Link](#)

Cisco NetAcad - Python Essentials

[Link](#)

Coursera - How Google Does Machine Learning

[Link](#)

Salesforce Trailhead - Agentblazer Champion

[Link](#)

NPTEL - Algorithmic Graph Theory & DS

[Link](#)

NPTEL - Database Management Systems

[Link](#)

AI&DS Masterclass (Zayed University)

[Link](#)

GLOBAL PLATFORMS

Leetcode : Max rating – **1408** | Solved problems: **300+** | Badges: **2** | Streak: **100+** days.

[Link](#)

Codeforces : Max rating – **815** | Position: **Newbie**.

[Link](#)

Codechef : Max rating – **1147** | Position: **1 Star (Div4)** | Problems: **500+** | Badges: **5** | Streak: **200+** days.

[Link](#)

Codolio : Solved problems: **869** | Active Days: **266** | C Score: **647.58**

[Link](#)

ACHIEVEMENTS

- Participated in **multiple hackathons**, building working prototypes under real problem statements.
- Solved **500+** problems on CodeChef and **200+** on LeetCode, improving algorithmic and logical thinking skills.
- Young Leaders Global Immersion Program — UAE (Jan-Feb 2026)** Attended AI & ML masterclasses at Zayed University (Abu Dhabi & Dubai); competed in AIESEC Industry 4.0 Hackathon at De Montfort University; earned certificates from Zayed University, Odoo, and AIESEC.
